

Hosted by **Inter-Care, Marworth & Sierra Tucson**

You and your colleagues are cordially invited to attend a

A Morning with Dr. Michael Picucci

## **Somatic Experiencing & Focalizing:**

### **The Integration of Innovative, Soulful and Energetic Approaches to Addiction and Trauma Healing**

Dr. Michael Picucci has been researching the interrelationship between addiction and trauma for almost 30 years. The National Institutes on Health (NIH), National Institute on Drug Abuse (NIDA) and the National Association of Professional Addiction Counselors (NAADAC) jointly honored him with the *Outstanding Leadership in Research Award* in the year 2000 for his published findings.

Michael will be *experientially* sharing with us what he has continued to learn in his focused fieldwork and private practice. This includes the efficacy of introducing energetic modalities to help clients find the innate capacity to heal from the past and release new energies to live more fully in the present. He will demonstrate that in this gradual movement from *stuckness* to a freer, soulful energetic flow, how clients experience that, under certain conditions, we are inherently hardwired to heal.
